Yes, Dr. Troll
Oh Missel
Can you revive the Medusa?
If I can't, I will just activate her clones

But it will take sometime to mature the clones
What was it you wanted to talk to me ?
Is it possible to make a clone out of a dead body ?
What?
I believe I've come up with a good idea to lure Kitty 101
Someone named Son Revy was killed by Mars Heaven Son Revy was Mars Heaven's close friend Mars Heaven seemed to be weak against this character
Even a clone will make it worthwhile

Did you watch the TV ?
Ahah, the revolt ?
The girl's name is Mars Heaven, I heard.
I've never seen anything like that before.
She even killed the Medusa ...
Some friend of mine was there. He told me that ...
If I had that kind of powers I would rule the world
You ? Haha no way
Anyway seeing an esper like that we are nothing but garbage None of us is match for that kind of powers
I don't feel like working as an esper anymore
No kidding
Do you know how many of us were killed by the administration yesterday ?

Would you like to work for Mars Heaven ?
Who are you
Ah ! Kit of the Medusa !
What? the Medusa ? Seriously ?
Yes, he is I've seen him before
Yes ! I was a member of the Medusa But not anymore
I now work for Mars Heaven
What ?

Do you want to create a new world with Mars Heaven ?

You have no ID or anything Your appearance is not registered anywhere either
Are you here illegally ?
Your life was at risk So we treated you anyway But if you don't tell us anything we will just have to hand you over to the police

What does Dr Troll really want ?
I heard that the esper who caused the recent event was your creation called Kitty 101 ?
Yes

www.janimes.com

The powers were really something
I've seen thousands of espers but she was one of the kind
Where's she right now?
It's currently not under my control
Too bad I would be willing to pay any amount of money for something like her
You won't be able to control it
Haha something like that's priceless
What happened to your latest project? Kitty 102...it was?
Can I see it?
You've used a lot of money on the project

That is not a part of the deal general
What s it you came here for ?
Lately, there have been increasing numbers of religious organizations
They have mass in public places and they react violently against the laws.
Whenever we stopped them with firepower, they revenged back in very childish ways. Many officers have lost their life for their revenge
We want to take care of on a personal level Dr Troll
I know you don't lke to see espers be ng used for such purpose

I will help you.
Ah ! And make sure you do attend to the party. Many powerful people will be there.
I found him
Where is he ?
Somewhere west ... I am not sure. Hhhhk I can teleport him back here
Should I do it now ?
No. I don't want a fight in this facility
Dr. Troll ! Let me do this !
Medusa should take care of this !

He killed his brother and sister
Yes he should be punished by his own kind
Go Kira You will bring me his corpse
Yes
Kitty 102 give me his location by telepathy
Ok
OK
Good morning
Some religious organizations are recruiting espers in order to fight back government in an island country
Kitty I want you to handle the case Terminate their leaders

Go outs de and show the world what you are capable of
Do not d sappo nt me
Yes Dr Troll I w ll not d sappo nt you

Think positively. I am sure you'd miss them if they are gone for good.
If they really like me ...
Ever since I was young I've had a lot of attentions on me
The workers at the center I was in Girls at my age I acted like a jerk and ran away but they still wanted me
They wouldn't have acted like they did if it weren't for my face
it's as if they are looking at what they want to have from me

After I had that thought..
I began to not trust her affection toward me
What they want is only outside
They like me ? Why ?
They are really ready to like not only my appearance, but what I have inside ?
Are they willing to just like me and not "own" me ?
I've met you always in dreams
There was no condition between us
I am a guy

I am not nto that k nd of stuff ether
Mood killer
BUt one day I had a thought
while looking at the girls who were into me numerous times..
I wondered that how they could be addicted to someone like that
I found them foolish. I felt sorry for them at the same t me also
But n a small corner of my m nd I felt like I wanted to be one of them for once
If I only could be into something that can make me forget everything, even myself ...

Ga
I want to meet
something
Something?
I don't know wh
But something
that can make me
forget about my

Amusing

Amusing I must say Dr Troll

You simply throw
dignity of man to oblivion
completely

I must say that I admire your guts
from time to time

All those
experiments
you created
the babies specimen

All those meant
no humanism

"No Tylor Don't
I said don't
"You are scaring me

No, this is not supposed to ... I am in ... my own dream ...
팟
It's not you, Tylor, I wanted to see. It was him ...
Tylor ?
Tylor ... get up.
Tylor ...

My first murder ...
Is that how it was ?
Venus ?
You liked him because he looked alike Isha ?
How

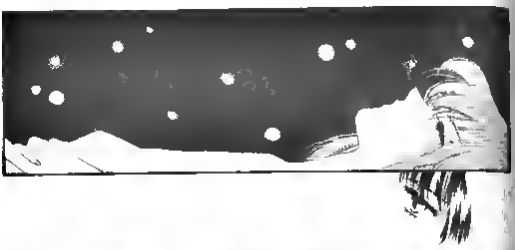
D dn't I tell you ?
That I am your b olog cal partner
It s like a very complex puzzle
If tm ng and wave pattern s ght I can connect to your dreams
I ve only had mere nterest about th s we rd connect on
I ve only been observ ng how it d go
But I don't want to do that anymore
What do you mean?

What do you thnk you are do ng ?
Even f we are n dream I am sure you felt It
I am your closet person
Do not forget that, Mars
What ...

What s wrong
Get away from me !
Men are really
What

You are a man too
You treated me like a pervert I told you that I don't have that kind of hobby
It's time to eat
What did Venus mean by
He wasn't like his usual self
He appeared in my dream because he can connect...?

Long t me no see, Jean
Yes, it's good to see you, Kane.



Isha ?!
What are you ...

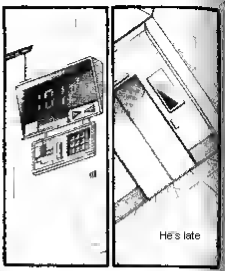
Ah ...
I am Gai now.

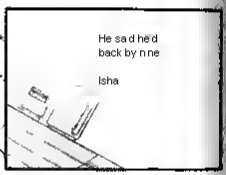
You surprised me

It was a good dream

I haven't had that k nd of dream for a long t me
Such a place s hard to be found on Earth
Someth ng happy someth ng easy
I even thought that perhaps t was Heaven
I just wanted to tell you that how I fet
Ahah
t s been a long t me s nce last t me we shared a dream
Ga
If you have nowhere else to go why don't you stay with me ?
I can't ... probably do that.
Yes that will always rema n to be a dream

www.jaimes.com





I am late
Ga
Uh?
Why is it
so dark
here ?
I was
just
I couldn't say
I was just
waiting for you
Why did
you turn off
all the light?
I think I've grown
the habit of a cat
it's because
I am staying
in one place
for so long
I am so bored
I wish I could
go out
Nushel City

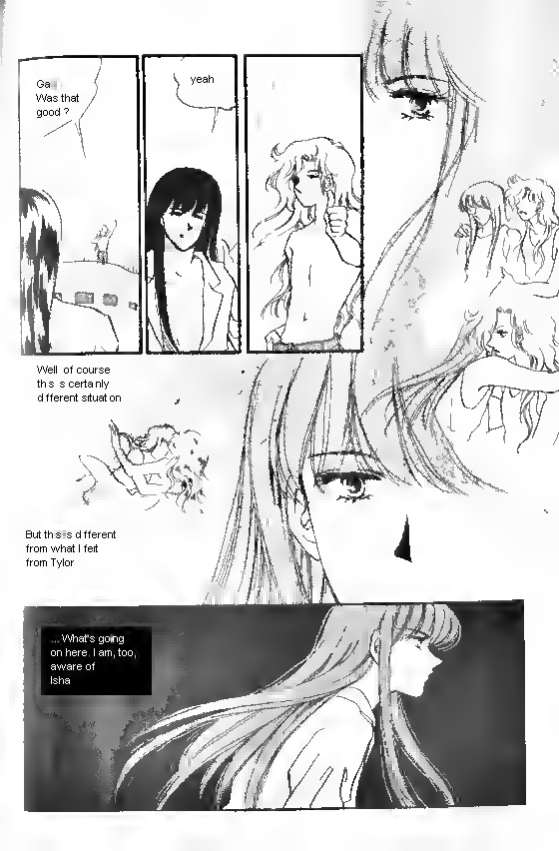
...you have a place to go ?
Yes..., but I can't right now.
Not until I change back to Mars.
Ahah, I am bored.
Then why don't you watch rehearsal ?
Can I ?

www.janimes.com

Walk about two meters from here
That s where we w ll activate another holograph c
And then a new song w ll be played
D d you br ng h m here?
Yeah So ?
Hmm you seem to be n good mood lately
Sure

I have someone waiting for me when I go back to my quarter
it makes me feel like I do have a home to go
Not just in dreams for real
But you barely know anything about him
so what the Gain dreams That s enough for me
What more do I need to know ?
Leave him be Isha s amazingly simply when it comes to emotions
never hard do
But Isha
That s if he contnues to stay with you
What are you going to do after he leaves ?

That fr end of yours s not go ng to stay
He s l ke the g rl who stayed w th you for a short wh le
Isha you need to f nd someone more stable
I can see that human body can be described as beauty
Arms and legs
Certa nly br ngs attent on
So that s a body of a man?
Is my current body l ke that too ?



Ga
Was that good ?
yeah
Well of course th s s certa nly d fferent situat on
But th s s d fferent from what I fet from Tylor
... What's going on here. I am, too, aware of Isha

Whenever
I am with Isha

I become too
comfortable

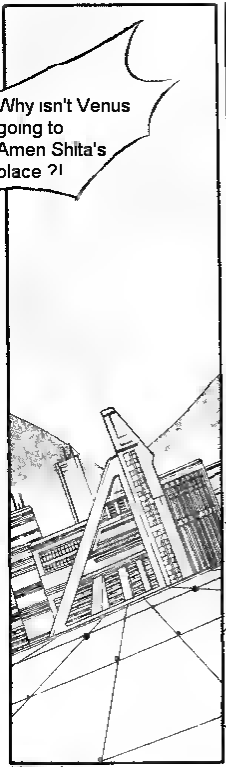
As if
I am in Heaven
of dreams

This is not good

This place is not
for me to be

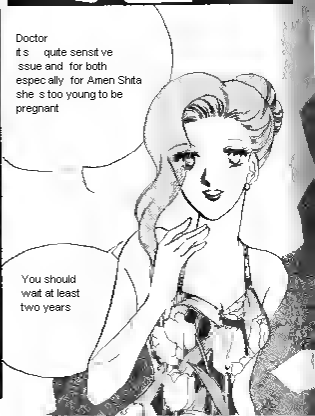
What is it ?
I am from adm n rat on mm grat on department
Ga S Heston you have no reg strat on number with you You w ll have to come with us

www.jaimes.com



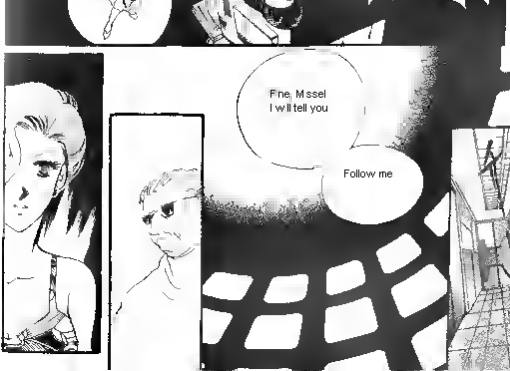
Why isn't Venus going to Amen Shita's place ?!

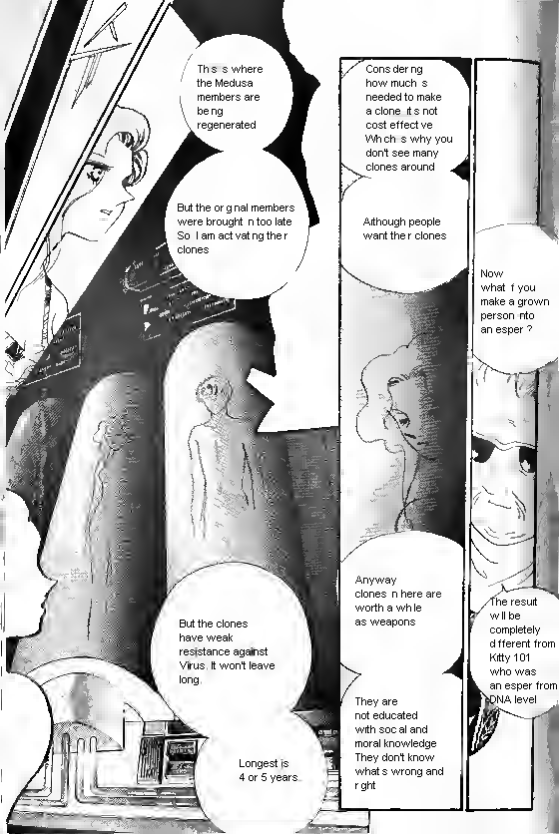
Kira hasn't returned after she went out to terminate Kit
They are daring to disobey me ?



Doctor
It's quite sensitive issue and for both especially for Amen Shita she's too young to be pregnant
You should wait at least two years

www.jaimes.com





Th s s where the Medusa members are be ng regenerated
But the or g nal members were brought n too late So I am act vat ng the r clones
But the clones have weak resistance against Virus. It won't leave long.
Longest is 4 or 5 years.
Cons der ng how much s needed to make a clone it s not cost effect ve Wh ch s why you don't see many clones around
Athough people want the r clones
They are not educated wth soc al and moral knowledge They don't know what s wrong and r ght
Anyway clones n here are worth a wh le as weapons
Now what f you make a grown person nto an esper ?
The resut w ll be completely d fferent from Kitty 101 who was an esper from DNA level

She had her DNA modified after growing up. Lifespan is Kitty 102 is 2 years the most ...
In the worst case, barely 1 year.
That is why I need her to be pregnant as soon as poss ble
Looks like you knew nothing about scientific facts in this area.
Yes ..., that is why I use you for commanding

Do you really think I know nothing about what you've been trying to accomplish while I was studying ?
You probably thought that , if you had the men power and a political position,
Not only Hercules, but you thought you could conquer the Troll world
Doctor !
I don't need your excuses, Missel.
That cunning personality is what I like about you.

Dr Troll
I like your intelligence
You've been intelligent ever since you were a child
Beautiful ones heads are usually filled with sexual desires and such
The fools always choose people's value by how "hot" or "sexy" looking they are....
I am not one of those fools.
I choose you and I create you

The conversat on went a little off top c
Yes I have someth ng to show you
Look at the end of th s room M ssel
Do you remember what you asked?
It was an accelerated clon ng So Its l fe span w ll be very short
But I succeeded

Sion Revy's clone has been completed.
